

GBCT TRAINING & EVENTS

MANCHESTER TUESDAY 17 to FRIDAY 20 MAY 2022

FILM LOADING WORKSHOP

Supported by

This 4-day course is available to all those interested in the film techniques necessary to safely manage film loading, handling, stock control, paperwork and note taking to create negative report sheets that must be sent with the exposed film to be delivered to the film laboratory for development. The course consists of film theory and a great many practical exercises when loading 16mm and 35mm most commonly used film cameras.

The next step:

Interested? If so, complete the training course application form (attached or download from www.gbct.org) and send this together with your CV by post (address below) or email to: admin@gbct.org

Course Pre-requisites:

There are likely to be different levels of professional experience of those wanting to attend this course. We will therefore be selecting candidates and then balancing and adjusting the course timetable to reflect this.
